Dr. Mezhat,

I came to you several years ago, struggling to get pregnant and because of the Endometriosis, I could not. You fixed me up and I had our 1st baby, Bryson. Last summer, I had a burst cyst on my ovary, causing scar tissue + extreme pain. Without your surgery, I would still be suffering. You cleared up my endometriosis while you were taking out the scar tissue and we were lucky to get pregnant again. Without you, we wouldn't have our beautiful children. Thank you! Juliana Orme
we are forever grateful for you!
